§80.17 Maintenance.

The State is responsible for maintenance of all capital improvements acquired or constructed with Wildlife and Sport Fish Restoration Program funds throughout the useful life of each improvement. Costs for such maintenance are allowable when provided for in approved projects. The maintenance of improvements acquired or constructed with funds other than funds from the Wildlife and Sport Fish Restoration Program are allowable costs when such improvements are necessary for accomplishment of project purposes as approved by the Regional Director and when such costs are otherwise allowable by law.

[73 FR 43129, July 24, 2008]

§80.18 Responsibilities.

In the conduct of activities funded under the Acts, the State is responsible for:

- (a) The supervision of each project to assure it is conducted as provided in the project documents, including:
 - (1) Proper and effective use of funds.
 - (2) Maintenance of project records.
 - (3) Timely submission of reports.
- (4) Regular inspection and monitoring of work in progress.
- (b) The selection and supervision of project personnel to assure that:
- (1) Adequate and competent personnel are available to carry the project through to a satisfactory and timely completion.
- (2) Project personnel perform the work to ensure that time schedules are met, projected work units are accomplished, other performance objectives are being achieved, and reports are submitted as required.
- (c) The accountability and control of all assets to assure that they serve the purpose for which acquired throughout their useful life.
- (d) The compliance with all applicable Federal, State, and local laws.
- (e) The settlement and satisfaction of all contractual and administrative issues arising out of procurement entered into.

§80.19 [Reserved]

§80.20 Land control.

The State must control lands or waters on which capital improvements are made with Wildlife and Sport Fish Restoration Program funds. Controls may be exercised through fee title, lease, easement, or agreement. Control must be adequate for protection, maintenance, and use of the improvement throughout its useful life.

[47 FR 22539, May 25, 1982, as amended at 73 FR 43129, July 24, 2008]

§80.21 Assurances.

The State must agree to and certify that it will comply with all applicable Federal laws, regulations, and requirements as they relate to the application, acceptance, and use of Federal funds under the Acts. The Secretary shall have the right to review or inspect for compliance at any time. Upon determination of noncompliance, the Secretary may terminate or suspend those projects in noncompliance, or may declare the State ineligible for further participation in program benefits until compliance is achieved.

§ 80.22 [Reserved]

§ 80.23 Allocation of funds between marine and freshwater fishery projects.

- (a) Each coastal State, to the extent practicable, must equitably allocate those funds specified by the Secretary, in the apportionment of the Dingell-Johnson Sport Fish Restoration funds, between projects having recreational benefits for marine fisheries and projects having recreational benefits for freshwater fisheries.
- (1) Coastal States are: Alabama, Alaska, California, Connecticut, Delaware, Florida, Georgia, Hawaii, Louisiana, Maine, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Oregon, Rhode Island, South Carolina, Texas, Virginia, and Washington; the territories of Guam, the U.S. Virgin Islands, and American Samoa; and the Commonwealths of Puerto Rico and the Northern Mariana Islands.
- (2) The allocation and subsequent obligation of funds between projects that

§ 80.24

benefit marine and freshwater interests will be in the same proportion as the estimated number of resident marine anglers and resident freshwater anglers, respectively, bears to the estimated number of total resident anglers in the State. The number of marine and freshwater anglers shall be based on a statistically reliable method for determining the relative distribution of resident anglers in the State between those that fish in saltwater and those that fish in freshwater.

- (3) To the extent practicable means that the amounts allocated of each year's apportionment may not necessarily result in an equitable allocation for each year. However, the amounts allocated over a period, not to exceed 3 years, must result in an equitable allocation between marine and freshwater fisheries projects. Ongoing marine project costs can be applied toward the State's saltwater allocation.
- (4) Failure to provide for an equitable allocation may result in the State's becoming ineligible to participate in the use of those funds specified, until such time as the State demonstrates to the satisifaction of the Director that funds will be allocated equitably.
 - (b) [Reserved]

§80.24 Recreational boating access facilities.

The State must allocate 15 percent of each annual apportionment under the Dingell-Johnson Sport Fish Restoration Act for recreational boating access facilities. However, a State may allocate more or less than 15 percent of its annual allocation with the approval of the Service's Regional Director. Although a broad range of access facilities and associated amenities can qualify for funding under the 15-percent provision, the State must accommodate power boats with common horsepower ratings, and must make reasonable efforts to accommodate boats with larger horsepower ratings if they would not conflict with aquatic resources management. Any portion of a State's 15-percent set aside for the above purposes that remain unexpended or unobligated after 5 years must revert to the

Service for apportionment among the States.

[43139, July 24, 2008]

§ 80.25 Multiyear financing under the Dingell-Johnson Sport Fish Restoration Program.

- (a) States may finance the acquisition of lands or interests in lands including water rights and the construction of structures and facilities utilizing multiyear funding as authorized by the Dingell-Johnson Sport Fish Restoration Act in two ways:
- (1) States may finance the entire cost of the acquisition or construction from a non-Federal funding source and claim Federal reimbursement in succeeding apportionment years according to a scheduled reimbursement plan.
- (2) States may negotiate an installment purchase or contract whereby periodic and specified amounts are paid to the seller or contractor and Federal reimbursements are allowed for each payment from any apportionment year current at the time of payment.
- (b) Multiyear financing is subject to the following conditions:
- (1) Projects must provide for prospective use of funds and be approved by the Regional Director in advance of the State's obligation or commitment to purchase property or contract for structures or facilities.
- (2) States must agree to complete the project even if Federal funds are not available. In the event the project is not completed, those Federal funds expended but not resulting in commensurate sport fishery benefits must be recovered by the State and reallocated to approved State sport fish projects.
- (3) Project proposals must include a complete schedule of payments to complete the project.
- (4) No costs for interest or financing shall be claimed for reimbursement.
